25X1

1. On 25 March 1954, about 15 to 20 trucks and 18 JS-2 or JS-3 tanks were entrained at Saalbahnhof in Jena from the early morning until about 5 p.m.
2. The units which had been entrained in Zeitz on 24 and 25 March, returned to their installations during the night on 31 March.

the bulk of the 20th Gds Mech Div had left on and after 24 March for exercises presumably in the Ohrdruf area. According to the present information, the exercise presumably terminated on 31 March.
